FOR IMMEDIATE RELEASE:

THE MISSNER GROUP SELECTED FOR TOYOTA EXTERIOR IMPROVEMENT PROJECT

(Des Plaines, Illinois) – The Missner Group is pleased to announce the firm has been selected for an exterior improvement and renovation project on behalf of Elgin Toyota located at 1600 W. Lake Street in Streamwood, Illinois. The property is owned by the Bob Loquercio Auto Group, which operates multiple auto dealerships around the Chicagoland area.

“We are eager to begin the renovations to Elgin Toyota and continue working with the Bob Loquercio Auto Group,” said Project Manager Kent Nepras. “The planned changes will not only improve the functionality of the property, but also the aesthetics and customer experience. The work will be completed with no interruption to ongoing operations and with the utmost regard to the safety of both the Elgin Toyota team and customers.”

The Streamwood project will include an extensive parking lot addition, the construction of an underground storm water detention system and the completion of numerous site improvements. This is The Missner Group’s second project for the Bob Loquercio Auto Group. The firm is also currently constructing a cutting-edge Toyota dealership and service center on Western Avenue in Chicago.

The exterior renovations to Elgin Toyota will be complete by Fall 2017. The Missner Group construction team includes Nepras as project manager and Angelo Christopher as project superintendent. Jacob & Hefner is providing the civil engineering and architecture for the project.

About The Missner Group

The Missner Group, headquartered in Des Plaines, Illinois, provides comprehensive and integrated real estate development and construction services throughout the Chicagoland and Midwestern markets. The firm, established in 1945, has completed more than \$1 billion in construction projects, and has orchestrated the development of more than 10 million square feet of commercial and industrial real estate.
