THE MISSNER GROUP SELECTED TO CONSTRUCT A NEW RETAIL STRUCTURE FOR GLENVIEW RETAIL DEVELOPMENT

(Des Plaines, Illinois) – The Missner Group is pleased to announce that the firm has been selected to construct a new 5,000 square foot retail building located near the interchange of Willow Road and I-294 in Glenview, Illinois on behalf of long-time client, GlenStar Properties. The new ground-up facility will be part of a 22-acre retail development, which The Missner Group helped to construct in 2015.

The Missner Group will build the 5,000 square foot building on behalf of GlenStar for AT&T. Bob Nomellini, chief operating officer, will lead the construction team which includes Heath Yarger as senior project engineer, and Bill Uchyn as lead superintendent. Stephen Rankin Associates is providing the architectural services.

“We have had the privilege over many years to work with GlenStar Properties on several projects throughout the region,” said The Missner Group President, Glen Missner, “and are pleased to work with them once again. GlenStar Properties is one of The Missner Group’s many long-time customers, and values our commitment and dedication to quality, efficiency and excellence.”

The Missner Group worked on this same development for GlenStar Properties throughout 2014 and 2015, which included numerous infrastructure improvements such as the construction of roads, sidewalks and multiple large-scale parking lots, as well as both above and below ground detention areas. The Missner Group also built two multi-tenant retail buildings, completed extensive landscaping, and constructed the site pads for a multi-story senior living facility, a national fitness facility, as well as others.

The new retail building is set to be completed in the fall of 2016.

About The Missner Group

The Missner Group, headquartered in Des Plaines, Illinois, provides comprehensive and integrated real estate development and construction services throughout the Chicagoland and Midwestern markets. The firm, established in 1945, has completed more than \$1 billion in construction projects, and has orchestrated the development of more than 10 million square feet of commercial and industrial real estate.
