FOR IMMEDIATE RELEASE:

**THE MISSNER GROUP SELECTED TO CONSTRUCT ILLINOIS BONE & JOINT INSTITUTE'S
SCHAUMBURG LOCATION**

(Des Plaines, Illinois) – The Missner Group is pleased to announce that the firm has been selected to construct a build-out for Illinois Bone & Joint Institute (IBJI) located at 140 N Roselle Road in Schaumburg, Illinois.

“We are pleased to work with the Illinois Bone & Joint Institute on another one of their projects. The Missner Group has had a longstanding relationship with IBJI, spanning over a decade of constructing numerous projects,” said Glen Missner, president of The Missner Group. “We are familiar with IBJI’s operations, commitment to their clients and what is necessary architecturally in providing the very best level of healthcare. The renovations planned for the Schaumburg space will create a comfortable, modern, state-of-the-art physical and occupational therapy space from which IBJI can best serve their clients.”

The build-out for IBJI will consist of turning an existing two-story tenant space into a single-story tenant space, which will include an old stair infill. The space will encompass an open concept physical therapy gym, featuring an advanced design with high-end finishes throughout. Additionally, new office suites and restrooms will be constructed in unit.

Heath Yarger is the project manager and Scott Nomellini is the project superintendent for The Missner Group. Stephen Rankin Associates is providing the architectural services. The project is scheduled for completion in Spring 2018.

A leader in orthopedic care in the Chicago metropolitan area with more than 20 locations, IBJI specializes in the diagnosis, treatment and management of injuries and diseases of the musculoskeletal system. The Missner Group has completed numerous projects for IBJI including locations in Chicago, Lincolnwood, Morton Grove, Wilmette, Glenview, and Des Plaines, Illinois.

About The Missner Group

The Missner Group, headquartered in Des Plaines, Illinois, provides comprehensive and integrated real estate development and construction services throughout the Chicagoland and Midwestern markets. The firm, established in 1945, has completed more than \$1 billion in construction projects, and has orchestrated the development of more than 10 million square feet of commercial and industrial real estate.
